About Abtech Solutions

Abtech Solutions, a Gulf Group Holding company based in Ras Al Khaimah, has been delivering ICT and extra-low-voltage (ELV) solutions since 2003. We design, supply, install and support systems for retail, healthcare, industrial, hospitality and residential clients across the UAE.

Our work covers surveillance, access control, structured cabling, telephony, public address, intercom, nurse call and more. We select equipment from leading manufacturers and integrate it into one managed system, so our clients get fewer conflicting devices and a single, clear view of their operations.

Clients stay with us because we respond quickly, give honest advice on what they actually need, and back every installation with technical support and warranty cover.

2003
Established in Ras Al Khaimah

30+
Technology partners and manufacturers

UAE
Wide project delivery and support

Our Vision

To be a market leader in technology services, known for international standards, top-quality work, and for making sure customers always have the best technology available to them.

Our Mission

To deliver innovative, cost-effective security and ICT solutions to clients in the Middle East, as an integrator that listens to customers and manufacturers alike and treats the company as being at their service.

Our values

Integrity
We give honest advice and stand behind our work.

Teamwork
Consulting, sales, design and site teams work as one.

Attitude
A can-do approach to every client and every site.

Performance
Systems tested, documented and built to last.

Passion
A real interest in technology and in solving problems.

What we do

End-to-end ICT and ELV systems: consulting, supply, installation, commissioning and support.

Security & Surveillance

- IP CCTV systems
- Access control systems
- Intrusion and burglar alarms
- Key management systems
- Gate barrier and parking systems
- Disabled alarm systems

Networks & Communications

- Structured cabling (copper and fibre)
- Active networking and components
- Telephone systems (PABX / IP PABX)
- Data center solutions
- Storage solutions
- UPS systems

Audio, Video & Broadcast

- Public address systems
- Voice evacuation systems
- Audio and video conferencing
- SMATV systems
- IPTV systems
- Master clock and bell systems

Building & Facility Systems

- Audio and video intercom
- Nurse call systems
- Guest room management
- Queue management systems
- Time and attendance
- RFID solutions, home and office automation

Need a mix of these systems?

We integrate them into one managed platform, so you deal with one team from design to long-term support.

How we work

A clear, documented process that keeps projects on time, on budget and fully supported after handover.

01

Assess

We start with a consultation and site assessment to understand your infrastructure and your stated and unstated needs. The quotation is based on this.

02

Design

Our design team prepares plans and specifications that match your budget and installation timeline, and manages ordering and delivery.

03

Install

Experienced technicians install hardware and software to the agreed design. Any site changes are documented and agreed with you immediately.

04

Train

We train your users and provide documentation, so everyone is confident using the installed system.

05

Monitor

Each product is tested individually and the system is commissioned with unit and system tests to ensure quality.

06

Support

Proactive maintenance and responsive support keep your systems up and running smoothly after handover.

Selected projects

Delivered for Gulf Group Holding companies and other clients across Ras Al Khaimah.

Al Aswaq Hypermarket, Khalifa City

IP CCTV · Access control · Telephone and data · IP PABX · Public address · Anti-theft antenna

Al Aswaq Hypermarket, Jazeera

IP CCTV · Access control · Telephone and data · IP PABX · Public address · Anti-theft antenna

Al Zahrawi Hospital

IP CCTV · Access control · Telephone and data · Queue management · IP PABX · Nurse call · Public address

Al Oraibi Hospital

IP CCTV · Access control · Telephone and data · IP PABX · Public address

Kay Hospitality

IP CCTV · Access control · Telephone and data · Public address

Al Majan Printing Press

IP CCTV · Access control · Telephone and data

Al Nakheel Printing Press

IP CCTV · Telephone and data · IP PABX · Public address

Also delivered in Dubai

Telephone and data cabling and low-current systems for residential, commercial and labour accommodation projects in Jumeirah Lake Towers, Al Rifaa and Jebel Ali. See the next page for the full reference list.

Client references

Client	Systems delivered
RAK National Market, Khalifa	CCTV, Access, Data, PABX, PA, EAS
RAK National Market, Wadi Qor	CCTV, Access, Data, PABX, PA, EAS
RAK National Market, Jazeerah	CCTV, Access, Data, PABX, PA, EAS
RAK National Market, Ghalilah	CCTV, Access, Data, PABX, PA, EAS
RAK National Market, Br8 Khatt	CCTV, Access, Data, PABX, PA, EAS
RAK National Market, Br1 Kharan	CCTV, Access, Data, PABX, PA, EAS
RAK National Market, Br6 Masafi	CCTV, Access, Data, PABX, PA, EAS
RAK National Market, Br5 South Zaith	CCTV, Access, Data, PABX
RAK National Market, Zaith	CCTV, Access, Data, PABX, PA
RAK National Market, 4 Zahra	CCTV, Access, Data, PABX, PA
Al Zahrawi Hospital	CCTV, Access, Data, Queue, PABX, Nurse call, PA
Al Oraibi Hospital	CCTV, Access, Data, PABX, PA
Gulf Group Holding Company LLC	CCTV, Access, Data, PABX, IT and ERP support
Al Nakheel Printers & Stationers	CCTV, Access, Data, PABX, PA
Kay Invest	CCTV, Access, Data, PA
Durat Al Khaleej Ice & Sweet Water Factory	CCTV, Access, Data
Majan	CCTV, Access, Data

CCTV = IP CCTV system. Access = access control. Data = telephone and data network. PABX = IP PABX. PA = public address. EAS = anti-theft antenna system.

Other projects

Project	Scope
Wind Tower 2, Jumeirah Lake Towers, Dubai	Telephone and data cabling, low-current systems
G+2P+19 Typical Floor + Health Club, Al Rifaa, Dubai	Telephone and data cabling, low-current systems
Labour accommodation, Jebel Ali Industrial Area 3, Dubai	IP CCTV, Access control, Cat6 and fibre network
3B+G+5 Podium+24 Floors, Tecom, Dubai	Structured cabling as per Etisalat
New Al Aswaq Hypermarket and Shop, Awafi, RAK	Low-current, telephone and data, IP PABX, intercom
35 Villa project, Ras Al Khaimah	Low-current systems
Labour accommodation G+3, RAKEZ	Legrand structured cabling system

Technology partners

We work with leading global manufacturers and are trained and authorised to install and support their products.

HIKVISION · AXIS COMMUNICATIONS · Honeywell · BOSCH
dahua TECHNOLOGY · CP PLUS enhancing vision · Hanwha Techwin WISENET · PELCO by Schneider Electric
WatchNET SECURITY SINCE 2000 · FERMAX · AIPHONE · Comelit Passion and Innovation
ALCAD · TOA · TRIAX · Televes
FAAC GATES AUTOMATION AND BARRIERS · BFT · CAME · Nice
QMATIC Valuing Time · Bodet · MOBATIME SWISS TIME SYSTEMS · DSC Security Products
Satel · legrand · COMMSCOPE · BELDEN SENDING ALL THE RIGHT SIGNALS
PANDUIT · 3M · NETX · Opterna your reliable connection
excel without compromise.

Quality and certification

ISO 9001:2015 (quality), ISO 14001:2015 (environment) and ISO 45001:2018 (health and safety) certification is in progress. Our team includes engineers trained as Security Systems Engineers through American University of Ras Al Khaimah programmes.

Let's work together

Tell us about your project. We will assess your needs and propose the right system.
